

March 28, 2023

Dear Colt Moving customer,

UNITS Moving and Portable Storage of Indianapolis is delighted to partner with Colt Moving to provide you with storage for your household goods. We share Colt Moving's core values, and our partnership complements each other's businesses well.

We are pleased to offer you an exclusive **10% discount** from our standard pricing for both our on-site and in-service center storage options.

UNITS of Indy provides moving and portable storage solutions for homeowners and businesses in Indianapolis and the surrounding counties. We can place storage containers on site, store them inside our service center, and provide curb-to-curb delivery. We can also support long-distance moves. Here's what makes us unique:

- UNITS of Indy is **locally owned and operated**. We are a local, veteran family-owned business. Like you, we live and raise our family in this community.
- You will **never have to deal with a call center** when they contact us. They will always talk to the same folks. No long hold times and no call transfers.
- Our unique ROBO-UNIT delivery system **keeps the container and its contents level** during offloading and allows us to **place a container almost anywhere**—in the backyard, between the house and a fence, down an alley—all without taking the truck on the property (so no busted sprinkler heads or ruts in the grass from tire wheels). Low limbs, powerlines, and septic tanks are rarely an issue with our delivery system.
- UNITS containers are **vented solid steel—waterproof and critter proof**—with barn doors, an E-track system, and tie-down loops to secure contents easily.

We can tailor our service to your needs! Just go follow the QR Code below or call us directly at 317-349-5363. We look forward to helping you with your move!

Sincerely,

Mike Simek
Owner and Operator
